Beefeater (40%) **40**

Beefeaters, who were the Yeomen Warders of Her Majesty's Royal Palace and Fortress, were the ceremonial guards of the Tower of London. Beefeaters consumed broths made of beef, which were described as rich and hearty, the reason behind their interesting name.

Botanic Ultra-Premium London Dry Gin is produced by winemakers William & Humbert to a higher strength than their standard Premium London Dry Gin. The Botanist Gin is a progressive exploration of the botanical heritage of Islay. 22 hand-picked local botanicals delicately augment nine berries, barks, seeds and peels during an achingly slow distillation. This first and only Islay Dry Gin is a rare expression of the heart and soul of our remote Scottish island home.

Premium Indian tonic, a drop of Laphroig whiskey, and smoke on the top.

Saffron (40%) **40**

Saffron Gin comes from a recipe rediscovered in the Boudier archives. Saffron Gin is the result of an alliance between Great Britain for its London Dry Gin, India for its spice used extensively in cooking and in religious ceremonies, and French know-how developed by Gabriel Boudier. This original product with exotic notes is manufactured entirely in Dijon.

Bombay Sapphire (47%)**40**

Bombay Sapphire's story begins with Thomas Dakin in 1761. At the age of 24, Dakin purchased a site with potential for distilling on Bridge Street in Warrington. In doing so, he established one of the first major distilleries outside of London. Warrington may seem an unusual choice nowadays, but in its hey day the city's access to the port of Liverpool made it the ideal location to start a distilling empire.

Premium Indian tonic and lemon

Bulldog (40%)**40**

It is difficult to trace where the name itself came from. There have been claims that because the year it was released, 2006, was the Chinese Year of the Dog, they named it after a breed of dog, whilst others claim that it is named after the famous British canine as a representation of the British spirit and symbol of the nature of this gin. The website reads that it was a reference to Winston Churchill. The mystery remains unsolved.

Premium Indian tonic, star anise and a slice of lemon

London No 3 (46%)**75**

The name No.3 refers to the address in St James's Street, London: its home since 1698! No.3 was created to be the last word in gin for a Dry Martini. With juniper at its heart, it unashamedly celebrates the integrity and character of a classic London Dry Gin: six perfectly balanced botanicals distilled in traditional copper pot stills.

Ungava (43,1%)	60
The first thing that anyone notices about Ungava Gin is the colour. That electric neon yellow colour. The colour is from the infusion of the six arctic plants that make up Ungava's unique botanical bill. The base spirit is local corn and the six arctic botanicals range from the relatively common– Rosehips for example, and the go all the way to the obscure such as the Bakeapple or Labrador Tea.
